HTD-120-12 LED high power rigid strip light(Can make double side 24W)

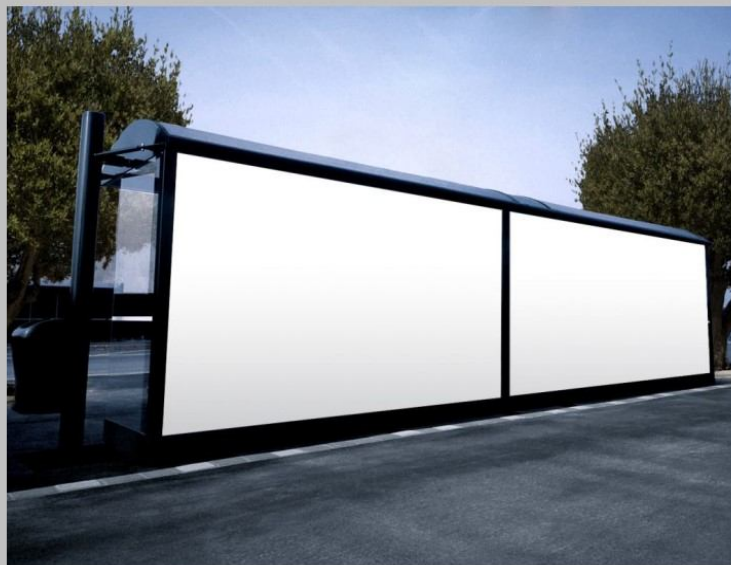

Description of products:

HTD-120-12 (Single side)Constitute by:

1.5mm MCPCB and Pure copper lines with waterproof silicone cover,3030SMD high power LED and good quality optical Lens. 160° angle beam can be do well working on use for back light and Supplementary lighting.

HTD-120-12 Working voltage is DC12V Constant current circuit,the power can be available in 12-24W(Double side) to choose. When we computing power should retain 20% of the allowance.A single string of not more than 5PCS,made both ends of energized was the best supply electricity mode.

*Main used for replace tubes and other backlight product in light box.Easy installation,high alternative.
